

Globetech™

Engineered solutions

Our Mission & Vision

About Us

Our Mission:

To provide excellent service and support to our clients and be active in the improvement of our clients' businesses. To provide critical engineering expertise and understand our clients' process requirements.

Our Vision:

To harness technologies, resources and services from Australia, Asia and Europe to be able to deliver complete specialist engineered solutions to our domestic and international markets.

Milestones:

Globetech was founded in Australia in 2007 to operate in the area of industrial automation and drive systems.

In 2010 Globetech Construction was established in Australia to provide electrical installation and electrical manufacturing capabilities, increasing the overall scope of supply that Globetech could deliver.

In 2011 Globetech Asia was established in Saigon, Vietnam to provide multi-discipline engineering (Electrical, Mechanical and Process) and to focus on the Asia Market.

Globetech Pty Ltd

1/21 Denison Street
Wollongong, NSW 2500 Australia
Ph: +61 (0) 2 4254 0000

Globetech Asia

25/18 Cuu Long Street
Phuong 2 Quan Tan Binh,
HCMC, Vietnam
Ph: +84 (0) 8 3848 7826

Electrical & Automation Solutions for Industries

- Sector Specific Process Control Solution
- Automation & SCADA Systems; Engineering Design / Software Application / Start Up
- Special Motors & Drives; Engineering Design / Installation / Start Up
- Energy; Reporting & Monitoring Applications
- Power Factor Correction Systems; Engineering Design / Manufacturing / Installation / Start Up
- Medium Voltage Systems & Transformer; Engineering Design / Supply / Installation / Start Up
- PLC, MCC, DB, LV Panels; Engineering Design / Manufacturing / Installation / Start Up
- Instrumentation; Engineering Design / Supply / Installation / Start Up
- Turn Key Electrical & Automation Solution
- Product Support / Technical & Maintenance Service
- Consultative Selling / Offer Preparation
- Technical Training
- Equipment Supply

Mechanical & Process Solutions for Industries

- Thermal Process Engineering - Heating & Cooling
- Process Ovens, Furnaces, Incinerators, Melting: Mechanical design / Process Design / Start Up
- Mechanical System Design - 2D / 3D Modelling
- Factory Integration & Equipment Layout: Mechanical Design / Manufacturing / Installation / Start Up
- Ventilation & Heating Elements; Mechanical Design / Manufacturing / Installation / Start Up
- Turn Key Projects
- Product Support / Technical & Maintenance Service
- Consulting / Feasibility Studies
- Technical Training
- Equipment / Refractories Supply

Electrical Construction

- Electrical Construction Design
- Industrial Electrical Installations
- Project Management & Supervision
- High Voltage Substation Works
- High & Low Voltage Power Factor Correction Installations
- Labour Hire
- Commissioning & Start Up Assistance
- Maintenance Services

Manufacturing

Control Panels

PLC Panels

Operation Stations & Control Desks

Distribution Boards

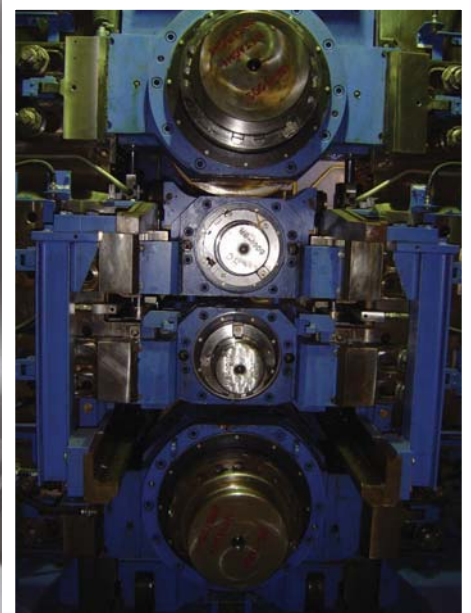

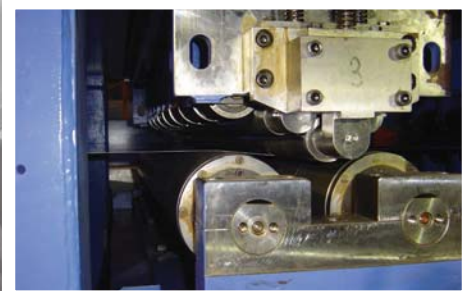

AC & DC Variable Speed Drive Panels

Steel & Aluminium

Process Lines Solutions

- Process Line Automation & Drive Solutions
- Strip Transport Control Solutions
- Speed, Tension, Position Control Solutions
- Drive System Design
- Thermal System Design
- Process Line Integration Engineering
- Operator Interface Solutions
- Process Line Sequence Control
- Alarming & Diagnostics
- Product Tracking
- Metal Coating, Painting, Slitting & Cut to Length
- Line Solutions
- Skin Pass Mill Solutions
- Tension Leveller Solution

Paper Industry

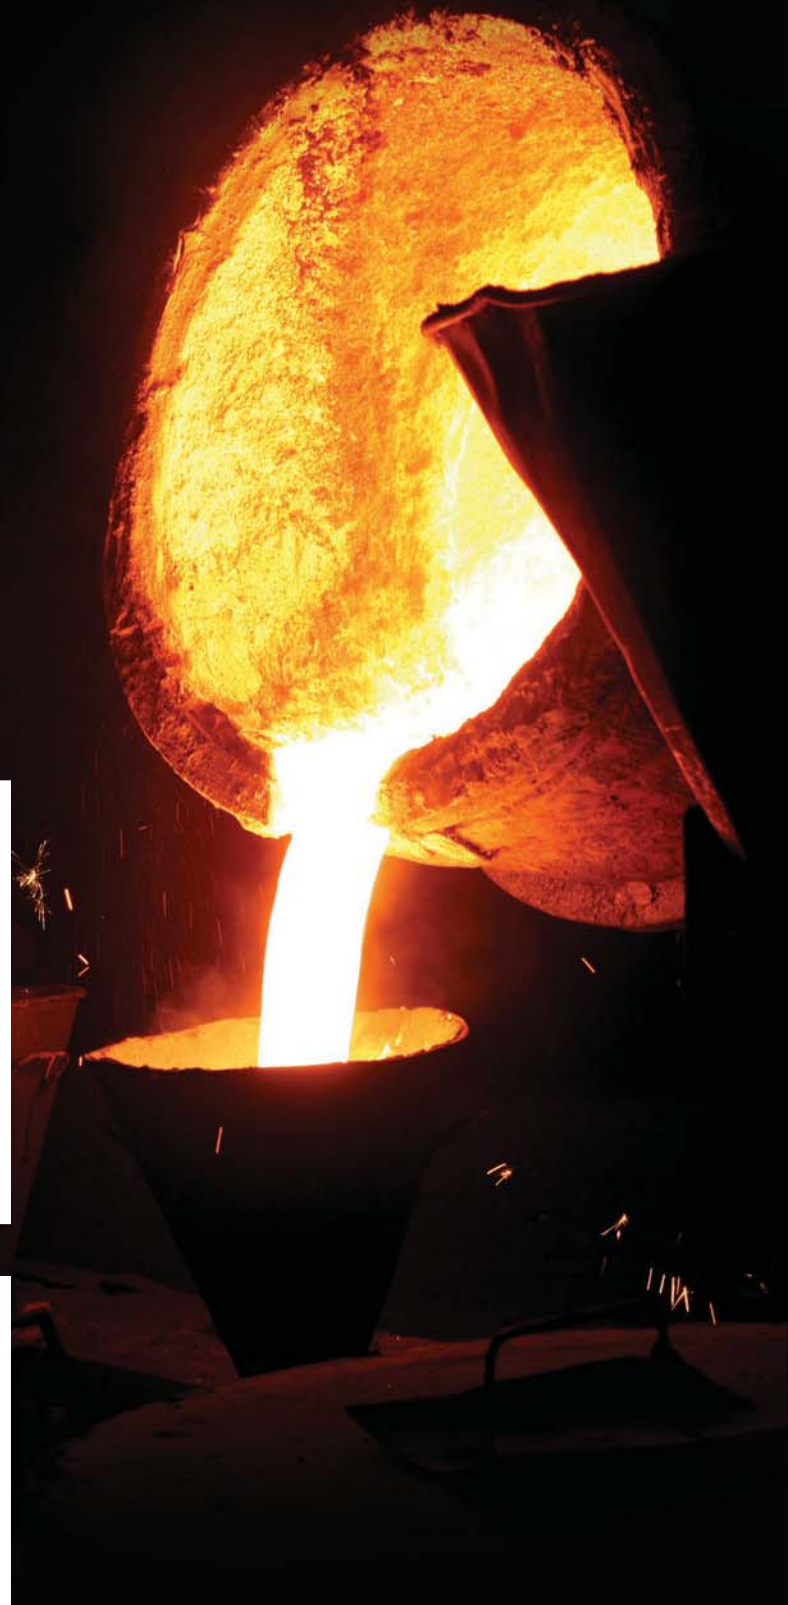

- Machine Control System Design
- Drive Automation System
- DCS Control System
- QCS Control System
- Design & Manufacturing of MV & LV System
- Speed & Tension Control
- Winder Application

Iron & Steel

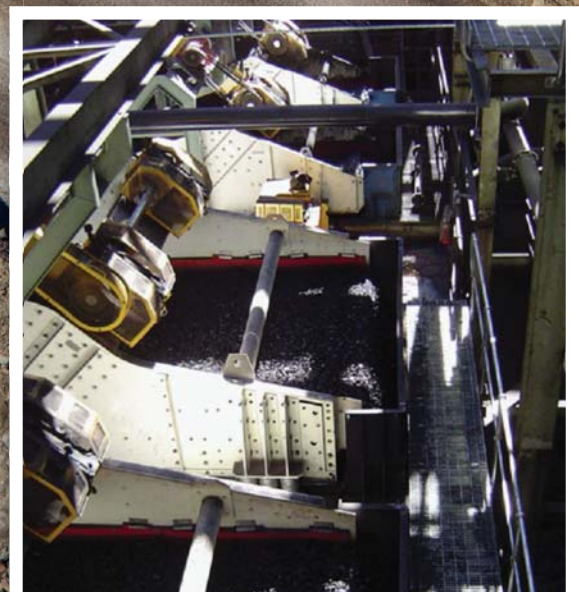

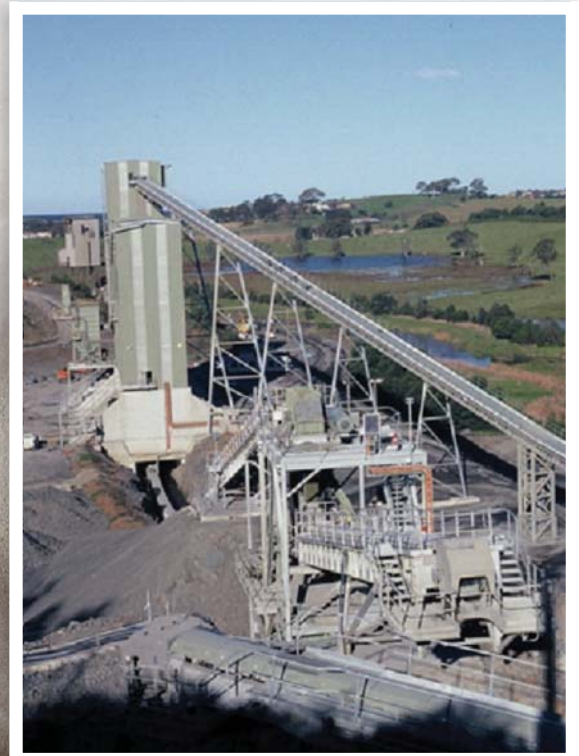

Metalshop Plant

- Turn-Key Electrical & Automation Solutions
- Process Control & SCADA Solutions
- Casting Machines
- Fume Treatment Plant
- Ferro Alloy
- Level 1 & 2 Solutions
- Furnace Control
- Water Cooling Systems

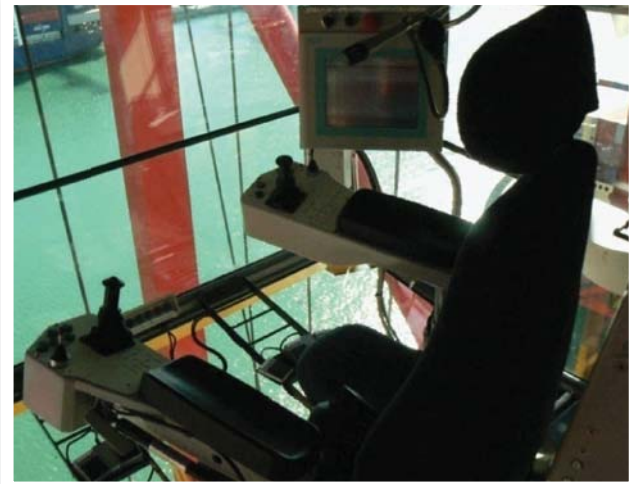

Material & Mining Industry

- Automation & Drive Solutions
- Stacker / Reclaimers
- Ship Loaders
- Conveyors
- Washeries
- Crushers & Vibro Feeders
- PLC & SCADA Systems
- Plant Sequencing
- Switch Boards
- Material Tracking

Cranes & Ports

- Automation & Drive Solutions
- Speed and Position Control
- Safety Systems / Anti-Collision
- PLC & SCADA Systems
- Secure Wireless Communication
- Tracking Systems
- Hoisting / Long Travel / Cross Travel / Cable Reelers / Slew
- Design & Manufacture Electrical Systems

Water Industry

- Turn Key Electrical & Automation Solutions
- Clean / Waste Water Treatment Plant
- Pumping Stations
- Energy Monitoring System
- Maintenance Reporting System
- Municipal Water SCADA Applications

Chemical Industry

- Automation & SCADA Solutions
- Design & Manufacture MV / LV Systems
- Batch Control Applications
- Weighing / Dosing Applications
- Temperature / Flow / Pressure Control
- Speed Control
- Filling / Packaging Applications

Energy Industry

- Electrical & Automation Solution
- Design & Manufacture MV & LV System
- Switchyard Monitoring
- Energy Monitoring & Reporting
- Maintenance Reporting
